OBJECTIVES

Establishing connections between universities to further solidify internationalization and cooperation in the pursuit of educational and research development.

A crucial approach for fostering interdisciplinary research and education. This holistic perspective is inevitable for creating a healthier planet and a more sustainable future.

Focusing on the long-term sustainability of developments across all dimensions in academic environments.

WE OFFER

Opportunities of visiting our Research and Didactic Stations, cultural landmarks such as the Palace of Parliament and Peleş Castle, the Village Museum and others.

Part of the meals during the five days mobility, including a traditional Romanian dinner experience and a Romanian university wine tasting.

Accommodation in our hotel-like dormitory, in single rooms with private bathroom facilities, located in our green campus, 20 minutes away from the city center and from the airport.
